How to use these prompts

1. **Pick your workflow:** under **Choose your workflow**, tap the workflow shown on the card: **Coin Depth Maps**, **Stacked Layers** or **Layered Relief**.
2. **Open the Relief Generator** and choose **Create New Artwork**.
3. **Subject:** copy the Subject line into the **Subject** box.
4. **Border ring, Composition and Background:** pick the ones shown on the card. Coin Depth Maps always makes a round medallion.
5. **Press Generate Relief Artwork.** Each generation is 5 AI credits and includes the automatic AI Depth refinement pass.
6. **Not quite right?** Press **Re-roll Variation** for a new take on the same prompt, then continue to Panel Shape and Export.

Quick guide to the workflows

Workflow	What you get	Best for
Coin Depth Maps	A round medallion height map, nothing else to set up.	Challenge coins, ornaments, medals
Stacked Layers	The relief split into cut layers you glue together.	Plywood, acrylic and cardstock layered art
Layered Relief (beta)	One LightBurn project that engraves depth in passes.	Single-piece deep engraving

Keep it to one subject. Reliefs work best with one clear subject, not a busy scene. **Flat** background keeps the subject crisp on a smooth field; **Layered** gives the background its own carved depth.

Leave out names, numbers and real logos. AI scrambles text and can't copy official emblems. Add names, dates and unit numbers afterward as separate engraving. Every AI result is unique, so re-roll if the first one isn't perfect.

Animals and Wildlife

Single animals make the cleanest reliefs. One subject, kept simple.

1. Howling Wolf

SUBJECT

a wolf head howling with a crescent moon behind it

Border ring: **Celtic knot** · Composition: **Round medallion** · Background: **Flat**

Best workflow: **Coin Depth Maps**

Tip: A classic coin. The moon gives the wolf a clean shape to stand against.

2. Bull Elk

SUBJECT

the head of a bull elk with large antlers, facing forward

Border ring: **Braided rope** · Composition: **Round medallion** · Background: **Flat**

Best workflow: **Coin Depth Maps**

Tip: Facing forward keeps both antlers in the coin.

3. Grizzly Bear

SUBJECT

a grizzly bear standing on its hind legs, roaring

Border ring: **Plain rim** · Composition: **Oval medallion** · Background: **Layered**

Best workflow: **Layered Relief**

Tip: Oval fits a standing bear better than round.

4. Whitetail Buck

SUBJECT

a whitetail buck head in profile with a full rack of antlers

Border ring: **Laurel wreath** · Composition: **Round medallion** · Background: **Flat**

Best workflow: **Coin Depth Maps**

Tip: Profile heads give the strongest relief edge.

5. Mountain Lion

SUBJECT

Border ring: **Plain rim** · Composition: **Rectangular panel** · Background: **Layered**

Best workflow: **Layered Relief**

Tip: Rectangular panels suit long, low animals.

6. Bison

SUBJECT

a bison standing in profile with its head lowered

Border ring: **Braided rope** · Composition: **Rectangular panel** · Background: **Flat**

Best workflow: **Stacked Layers**

Tip: The big shoulder hump makes great stacked layers.

7. Moose

SUBJECT

the head of a bull moose with wide antlers

Border ring: **No border** · Composition: **Round medallion** · Background: **Flat**

Best workflow: **Coin Depth Maps**

Tip: No border gives the antlers more room.

8. Fox

SUBJECT

a red fox curled up asleep with its tail around it

Border ring: **Celtic knot** · Composition: **Round medallion** · Background: **Flat**

Best workflow: **Coin Depth Maps**

Tip: Curled animals fit a round coin perfectly.
